

THE INOBITS CONSULTING & webINTELLECT ALLIANCE

Inobits Consulting and webINTELLECT have established an alliance aimed at assisting organisations to achieve effective ICT and business alignment through the implementation of integrated service management solutions. Through the alliance, Inobits will deliver a range of ICT infrastructure and service management consulting services focused on the adoption and effective implementation of the webINTELLECT's 3blx integrated service management tool set. The services will be delivered by Inobits's current ICT Management Solutions line of business.

The establishment of the alliance was driven by the requirement for professional services to ensure the effective integration and adoption of webINTELLECT's service management tool set within customer organisations. Both Inobits and webINTELLECT are within the contexts of their respective strategies solution-oriented businesses. They are also advocates and implementers of best practices, and have a clear focus on assisting customers to extract value from investments in ICT through integrated management of ICT infrastructures, services and organisations.

ABOUT INOBITS. Inobits's core business activities are centred around the development and implementation of flexible, effectively managed, and secure ICT service solutions and infrastructures that are based upon Microsoft® and related products and technologies. The company assists organisations to establish and maintain service-oriented and process-driven service provision environments, to plan, build and implement integrated service solutions, infrastructures and management architectures, and to establish and maintain skilled, well organised and disciplined workforces.
